

<i>Subject:</i>	<u>Internal Medicine 4</u>
<i>Study Year:</i>	5 th year
<i>Study Programme:</i>	General Medicine
<i>Term:</i>	Winter term
<i>Academic Year:</i>	2024/2025

LECTURES: The lectures must be recorded by 02.09.2024 at the latest to allow the students to see the subject's lecture before the start of its teaching.

	<i>two weeks</i>	<i>Plan of practices in Internal Medicine 4</i>
<p>Toxicology I - diagnostic and therapeutic approaches in acute and chronic poisonings, mushrooms, drugs, toxicomania</p> <p><i>prof. MUDr. L. Legáth, PhD.</i></p>	<p>1.</p>	<ul style="list-style-type: none"> - Toxicology I – intoxication by anorganic substances - Toxicology II – intoxication by organic substances - Occupational diseases of the respiratory system. Functional examination of the respiratory system - Occupational diseases (damage to the body from physical causes)
<p>Toxicology II - poisoning by organic compounds (ethanol and methanol, chlorinated hydrocarbons, organophosphates) and inorganic compounds (heavy metals, CO)</p> <p><i>prof. MUDr. L. Legáth, PhD.</i></p>		<p>Demonstration of patients as appropriate, basic diagnostic and therapeutic procedures in acute and chronic poisoning - differential diagnosis, clinical signs, treatment</p>
<p>Professional diseases of the respiratory system - pneumoconiosis, professional asthma, professional rhinitis, hypersensitivity pneumonitis</p> <p><i>prof. MUDr. L. Legáth, PhD.</i></p>		<p>Differential diagnosis of professional diseases of the respiratory system - how to proceed, how to treat, functional examination of the lungs, demonstration of patients by possibility</p>
<p>Damage to the body from physical causes - vibration, prolonged excessive unilateral load, noise, electromagnetic radiation</p> <p><i>prof. MUDr. L. Legáth, PhD.</i></p>		<p>Evaluation of knowledge in the form of a test</p>

<p>Geriatrics - the most common diseases in the elderly, specifics of treatment, preoperative preparation of elderly patients</p> <p><i>Doc.MUDr. Z. Schroner, PhD.</i></p>	<p>2.</p>	<p>- Specifics of diseases in the elderly, demonstration of patients with the most common diseases in gerontological patients</p> <p>Evaluation of knowledge in the form of a test</p>
<p>Geriatric cardiology and cardiac geriatrics</p> <p><i>doc. MUDr. M. Kozárová, PhD.</i></p>		
<p>Clinical geriatrics</p> <p><i>Doc. MUDr. Z. Schroner, PhD.</i></p>		

Doc. MUDr. I. Dravecká, PhD.
 internal medicine teaching coordinator
 for general medicine

Conditions for course completion:

1. For successful completion of the practical exercises/seminars is required:

- To participate at all of practical exercises, theoretical and practical performance of all exercises/seminars, it is possible to complete practical exercises in the Center for Simulator Teaching
- To get at least 60 % of total score for ongoing review of written test or the theoretical training to practical exercises.
- Evaluation: Study rules of procedure UPJŠ in Košice, the Faculty of Medicine, Part II, Art13

2. For successful obtained of the credits from subject is necessary:

- To gain the credit from practical exercises (paragraph 1 above).
- The final exam is written in the form of the Rogo test
- It is necessary to bring student's book to the exam with evidence of practical exercises.
- The final classification includes the evaluation of the written test and the results obtained in practical exercises
