

## *Requirements for completion*

---

### *Department of Paediatrics and Adolescent Medicine*

*Subject: Paediatrics 1*

*Year of study, Term: 5th / WT*

*Study programme: General Medicine*

**To complete the subject and obtain credits is necessary:**

- To participate at all of the practical classes and seminars, theoretical and practical performance of all exercises
- One absence is allowed /justified/
- Successful completion of the practical exam (grade A-E) before the credit test (on Thursday – the day before the credit test).
- The credit test at the end of the block can only be taken after completing the practical classes/seminars and after the successful completion of the practical exam
- The test is written on the last day of the block /Friday/ at the Department of Paediatrics and Adolescent Medicine, according to the time given in the schedule – it is necessary to arrive on time!
- **Before the credit test, every student is required to register for the given date via AIS, in sufficient time / min. 48 hours before the test/**
- Without prior registration in AIS, for the date corresponding to the given block, the student will not be allowed to take the test – student without registration will only be able to write the test in an alternative date during the exam period
- If the student does not take the test at the end of the given block despite of completing the conditions and registration in AIS, and does not excuse his/her

absence within 3 days, he/she will be classified with the grade "FAILED" and will be able to take the test within the 1st retake during the exam period

- In case, that the student has more than 1 absence, it is necessary to compensate the missing practical classes/seminars during one of the following blocks till the end of the winter term, but the practical examination and the credit test will be possible to take ONLY in an alternative date during the exam period

- In case, that the student does not complete the practical exam at the end of the given block, he/she will be allowed to attend this exam in an alternative date ONLY during the exam period, after the end of the last block of Pediatrics 1 (substitution of the practical exam during the semester with another block is not possible for capacity reasons)

- The credit test consists of 20 questions and to get the credit at least 60 % of total score (12 correct answers) is required

- Evaluation: according Study rules of procedure UPJŠ in Košice, the Faculty of Medicine, Part II, Art13

- In accordance with the Study rules of procedure UPJŠ in Košice, Faculty of Medicine, the teacher is not under an obligation to give alternative dates and dates for retake during the semester

- Retakes will be possible only during the exam period, after all the 5th year study groups finish their Pediatrics 1 block
