

**LIST OF SLIDES for practical examination of Histology and Embryology 2 for  
DENTAL MEDICINE students – summer term**  
**Histology and Embryology 2**

---

**ENGLISH EQUIVALENTS**

1. Skin
2. Aorta/elastic artery
3. Artery and vein
4. Thymus
5. Lymphnode
6. Palatine tonsil
7. Lingual tonsil
8. Lip
9. Tongue
10. Tooth
11. Oesophagus
12. Stomach - fundus
13. Small intestine (jejunum)
14. Large intestine (colon)
15. Parotid gland
16. Submandibular gland
17. Sublingual gland
18. Epiglottis
19. Trachea
20. Lung
21. Testis
22. Ovary
23. Uterus – proliferative phase
24. Uterus – secretory phase
25. Placenta
26. Pituitary gland
27. Thyroid gland
28. Parathyroid gland
29. Cerebral cortex
30. Cerebellum

**NOMINA LATINA**

- Cutis
- Aorta/arteria elastica
- Arteria et vena
- Thymus
- Nodus lymphaticus
- Tonsilla palatina
- Tonsilla lingualis
- Labium oris
- Lingua
- Dens
- Oesophagus
- Gaster - fundus
- Intestinum tenue (jejunum)
- Intestinum crassum (colon)
- Glandula parotis
- Glandula submandibularis
- Glandula sublingualis
- Epiglottis
- Trachea
- Pulmo
- Testis
- Ovarium
- Uterus - phasis proliferativa
- Uterus - phasis secretoria
- Placenta
- Hypophysis
- Glandula thyroidea
- Glandula parathyroidea
- Cortex cerebri
- Cerebellum

31. Spinal cord
32. Spinal ganglion
33. Peripheral nerve

Medulla spinalis  
Ganglion spinale  
Nervus periphericus
