

Conference organized by the Department of British and American Studies, Faculty of Arts, Pavol Jozef Šafárik University in Košice, Slovakia and the Slovak Association for the Study of English, Linguistics, Languages and Speech Research Unit 1339 (LILPA) of University of Strasbourg (France) and the Chair of French Culture and Language of University of Opole (Poland)

Anticipation in Consecutive and Simultaneous Cognitive Tasks

20 – 22 June 2019, Košice, Slovakia

Deadlines:

Submission of abstracts: 28 February 2019

Notification of acceptance: 29 March 2019

Registration begins on 16 March 2019

Registration fees:

Standard registration fee to be paid before 30 April 2019: 100 EUR

Registration fee for PhD students and accompanying persons to be paid before 30 April 2019: 50 EUR

Registration of MA and BA students: free of charge

Authors of presented papers will be invited to extend their papers for publication in electronic or print format with ISBN.

CONFERENCE CALL FOR PAPERS

This international and transdisciplinary conference is a follow up of two transdisciplinary meetings held in Strasbourg on the theme of anticipation, consecutivity and simultaneity. The first one, "Anticipation", was organized in 2000 and the second one, "Consecutivity and Simultaneity in Linguistics, Languages and Speech", in 2015. It is intended to bring together researchers from various disciplines of cognitive sciences, theory of translation and interpretation, linguistic sciences, including didactics of languages, robotics, biology, neurophysiology, psychology, psychomotricity, philosophy, history (this list not being exhaustive). It will explore various aspects of anticipation as a universal feature of perception-based mental activity making use of various anticipatory strategies enabling to recognize the correct sense trajectory/responsive reaction.

Thematic strands:

Consecutivity and simultaneity in cognition/phenomenology as a task-based process

Anticipatory phenomena, such as protention, co-production, synchronisation, anaphora and cataphora, etc.

Production-based versus process-based approaches to anticipation

Multi-level redundancy (co-occurrence of anticipation prompts) and probability of anticipation of the correct sense trajectory

Anticipation in interpretation (simultaneous and consecutive)

Anticipation in translation

Anticipation in language didactics

We invite proposals for twenty-minute papers relating to the Conference's main topic and its thematic strands as outlined above. Submissions will be reviewed on a double-blind review basis.

ABSTRACT SUBMISSION

Abstracts of papers (2 pages max.) clearly defining the topic and the objectives pursued in the paper should be submitted by e-mail as WORD attachments to: anticipation.conference.kaa@gmail.com.
