

The information for students to be examined on August 2020 terms

Dear students,

based on the recent regulation issued by the P.J.Safarik University administration you can make decision on way how you will be examined. There are two options: either personally or online. In case you prefer online examination you must announce the decision on the online examination till July 12th to vladimir.medvec@upjs.sk using your official university mail. After that ing. Medvec will contact you on July 13th from 8.30 a.m. to check online communication quality. During the checking you must be at the site you will be present on the examination day and being connected in MS TEAMS. The prerequisite for the online examination is a quality internet connection and web camera. If everything goes well, on day you already have registered to via AIS you will have to wait untill I call you and start communication and examination for which I will address to you 3 questions (1 general microbiology, 1 virology, clinical microbiology, 1 bacteriology, parasitology, mycology).

Those not choosing online examination must come on day they already registered to at 8.00 a.m. to Institute of Medical and Clinical Microbiology, Faculty building, 6th floor.

Dr.h.c. Prof. MUDr. Leonard Siegfried, CSc.
The Head of Institute of Medical and Clinical Microbiology
